

WEBINARS

ONE HEALTH IN ACTION

The UniGe PhD Programmes in Bioengineering and Robotics - Experimental Medicine - Science and Technologies for the Earth and the Environment, in collaboration with the Center 3R, organise a One Health webinar series.

The webinars are focused on efforts to enhance health outcomes for humans, animals, and the environment, by an update insights from leading experts on contemporary research, and best practices in the One Health domain.

The webinar will be held in English on the Teams platform from 2.30 pm to 4.30 pm CEST on 3-10-17 July 2026. A Q&A session will follow each webinar.

July
3

Vincenzo Cordiano
Isde-Medici's President Veneto's Environmental Protection
**Environmental Pollution and Planetary Health:
The case of PFAS and microplastics.**

July
10

Samuel Constant
CEO EPITHELIX
**Advanced Immunocompetent Primary Human Airway
Models for Respiratory Disease Modeling**

July
17

Silvia Scaglione
Director of Research at CNR, Founder and Chief scientist at
React4life
**From 3D Tumour Models to Multi-Organ-on-Chip
Systems: Reproducing Tumour Progression, Immune
Cell Infiltration, and Therapeutic Response In Vitro**

Participation is free and open to all interested students enrolled in PhD programmes and to professionals. The certificate of participation will be issued to those who have attended all three webinars.

The webinar series will confer 1 CFU to students enrolled in the PhD Programmes in Bioengineering and Robotics, Experimental Medicine, and Science and Technologies for the Earth and the Environment.

Preregistration at anna.maria.bassi@unige.it is necessary to receive the link to participate in the webinars.
